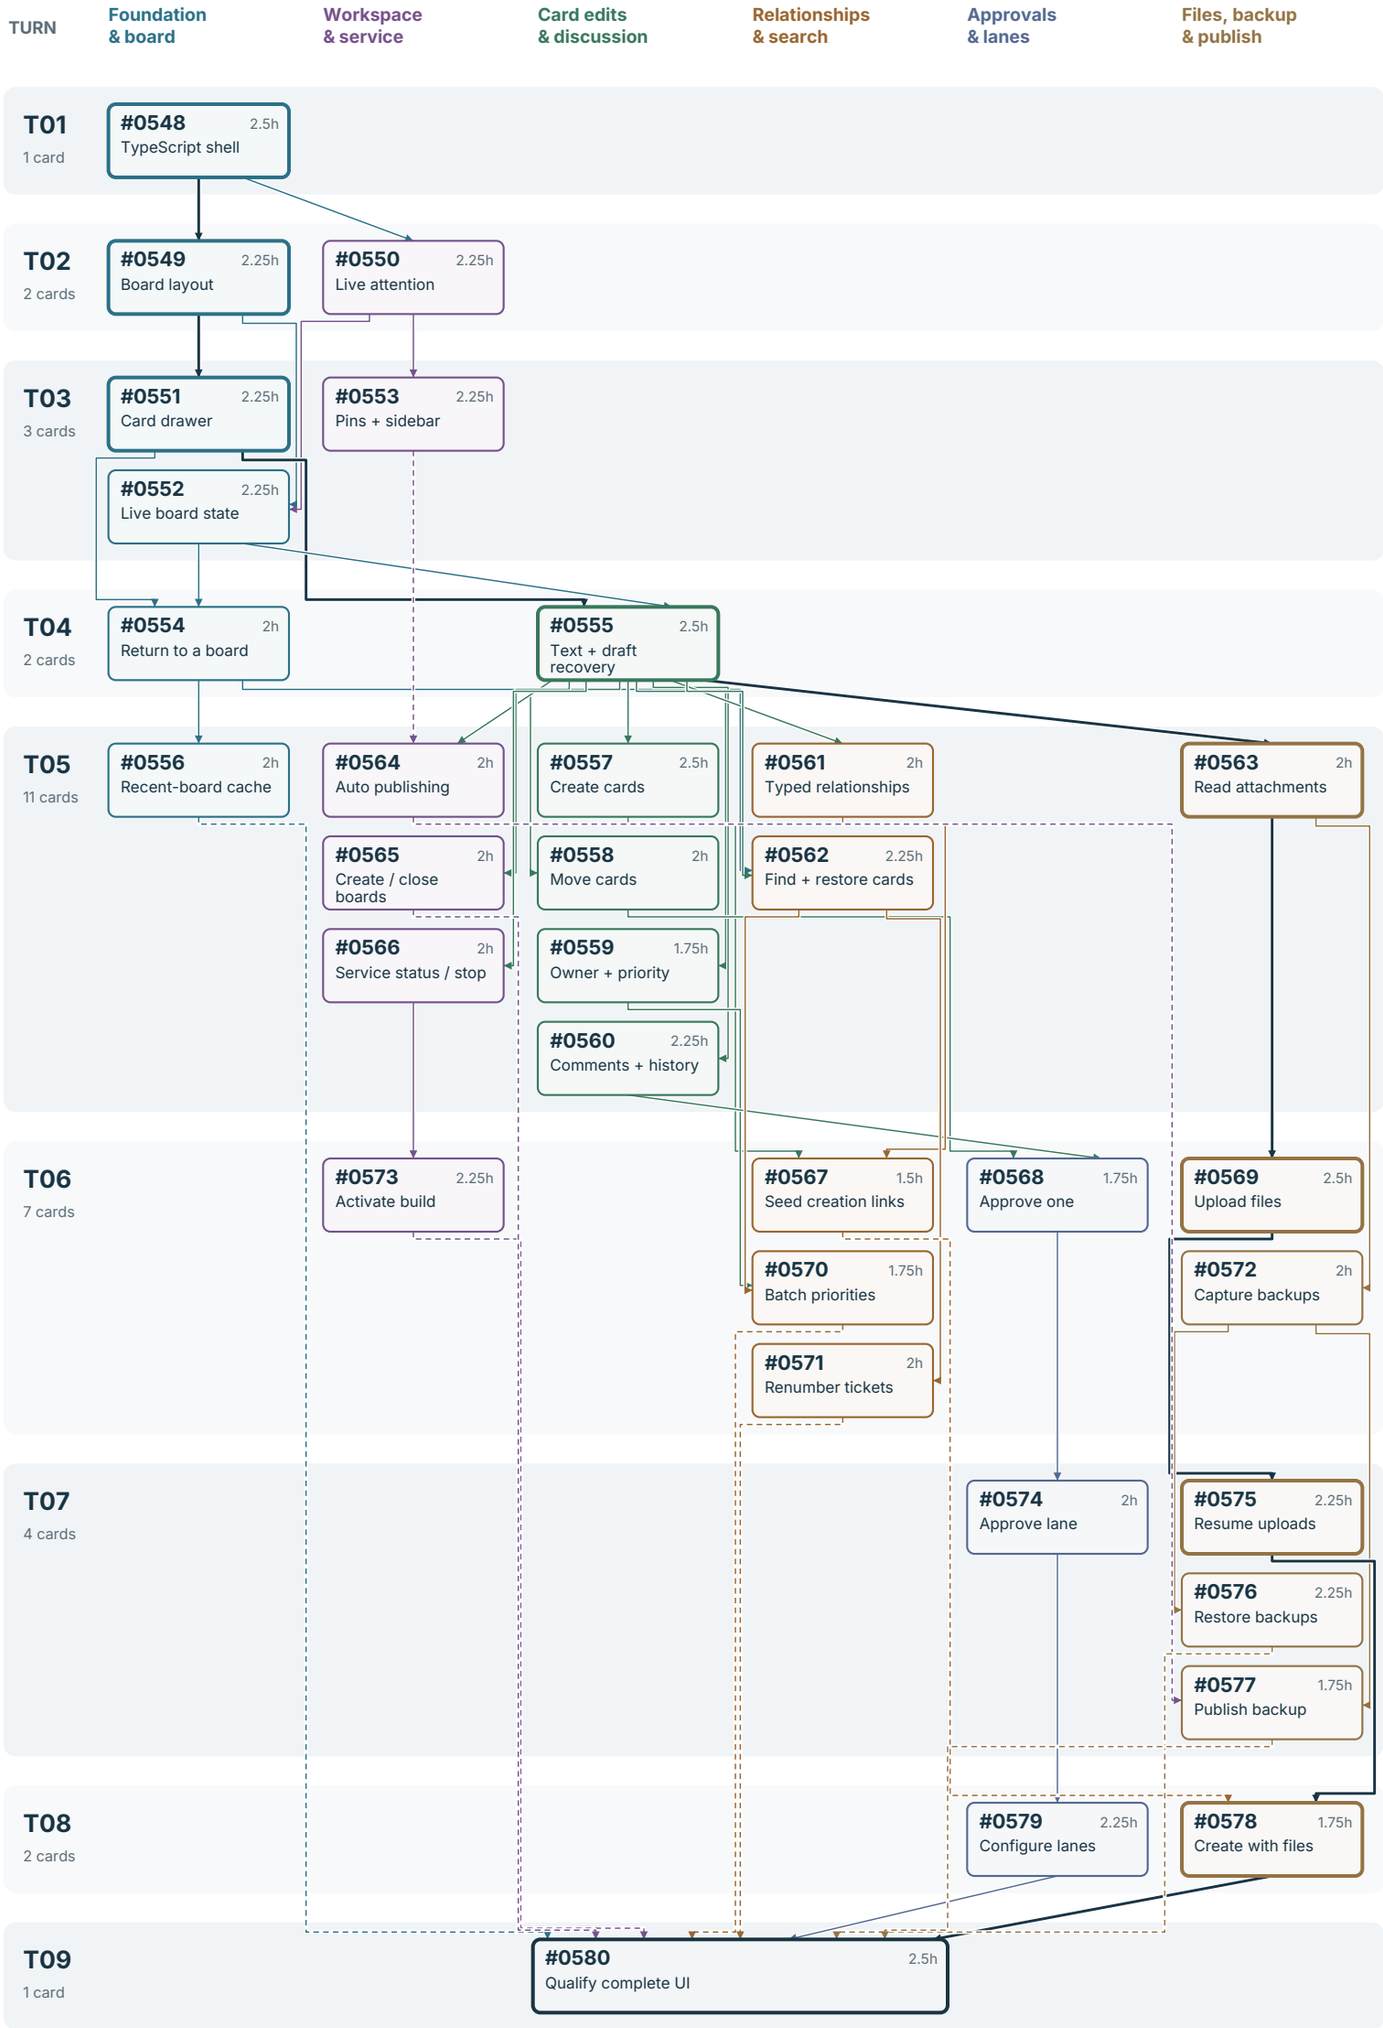
Localswim V2 UI

Epic #0514 / 33 stories / 9 dependency turns

US LEGAL / PORTRAIT

Read top to bottom



Solid arrows join adjacent turns; dashed arrows skip turns. Arrowheads point to dependent work.

Every card uses its earliest dependency turn. Stacked cards share the same turn.

50 arrows preserve all 65 dependencies; redundant arrows are omitted. Crossings do not join.

Roots start in T01; other cards start one turn after their latest upstream. Bold borders mark a longest path.
